

Metals and Plastics Program

Comprehensive coverage with premium savings up to 30%.

USI Affinity's Metals and Plastics Manufacturing and Machining Program offers an ISO-based form with customized coverage endorsements to meet the needs of contract manufacturing in the precision tool and manufacturing industry.

Programs are written on 100% admitted paper, and you'll have the support of a dedicated specialist who knows your business.

METALS AND PLASTICS MANUFACTURING AND MACHINING PROGRAM (MPMM)

Our comprehensive risk-management program is specifically designed for metalworkers and offers customized coverage to meet the needs of contract manufacturers.

The Safehold Metals and Plastics Program is endorsed by the National Tooling & Machining Association (NTMA).

SPECIALIZED COVERAGE

- Property
- General Liability
- Product Liability
- Commercial Auto
- Workers' Compensation
- Umbrella
- Crime
- Loss of Business Income
- Equipment Breakdown
- Inland Marine
- Aviation Product Liability
- Manufacturers E&O
(availability varies by state)

WE PARTNER WITH YOU

Our team partners with you and acts as a risk-management extension of your own staff, allowing you to focus on running and developing your business.

UNIQUE COVERAGE FEATURES

- Equipment Breakdown coverage includes operator error of machine, which is excluded in most policies.
- Ability to schedule off-premises customers' goods limits as needed for plating, heat treating and other processing needs.
- Goods in Transit coverage, which is valued at invoice plus accrued costs/prepaid charges/charges since shipment.
